

## Shape is Cut and Sewed to Stay in Clothcraft Clothes

**YOU** can depend upon it—the fresh-bought shapeliness of Clothcraft Clothes is there to stay. Many men have found that after a Clothcraft suit has been discarded, the coat can be worn for years for work or rough use without losing its original shape and fit.

Shape is built in Clothcraft Clothes—not pressed in. It's a part of the clothes themselves—and it will keep long after the clothes are worn out.

There's no guess work about this—Clothcraft Clothes are guaranteed to hold their shape.

The Clothcraft guarantee also insures all-wool cloth,

first class trimmings and tailoring, satisfactory wear and service.

We back up this guarantee with our own because after careful investigation we find that Clothcraft Clothes make good on every point. They are \$10 to \$25 and we can prove to you that they are easily worth more.

### PEOPLE FOR BECKHAM.

SAY COUNTY EDITORS AT THEIR  
ANNUAL MEETING LAST  
WEEK.

A dispatch to a Louisville paper from Olympia Springs, Bath county, last week, said:

Olympia Springs, Ky., June 13.—Ex-Gov. J. C. W. Beckham candidate for the Democratic nomination for United States Senator, spent Friday here shaking hands with the members of the Kentucky Press Association, who have been in annual session this week. Gov. Beckham is personally known to almost every county editor in the State, and a big majority of them are enthusiastic for him for the nomination next year. They were all glad to see him, and although politics of any sort is, of course tabooed at the formal association sessions, it is a very persistent topic of discussion between times, and a large number of the most influential editors from over the state made it a point to assure the ex-Governor of their earnest support of his candidacy.

When it was noised about that he was coming, several of his ardent admirers and supporters, including Harry Summers, of the Elizabethtown News, Ben B. Cozine, of the Shelbyville News, John B. Gaines, of the Bowling Green News, Shelton Sankey, of the Standard Interior Journal, Gamel Seniff, of the Mt. Sterling Advocate, T. L. Bulger, of the Glasgow Times, J. B. Stears, of the Nicholasville News and Hon. John R. Thomas, of the Lebanon Falcon met him as he descended from the bus at the Springs and gave him a cordial welcome. They and other prominent editors from other sections of the state gave him the most encouraging news. They say that he has the people of the State with him.

The editors say that the country people are thoroughly familiar with the record he made as Governor. They remember that he paid off a State debt almost as large as the present one—and built a new Capitol without increasing the tax rate one cent or issuing bonds, and most of all, they remember, the editors say that Beckham was the first man in public office of prominence with the nerve to make a fight against the all powerful liquor interests, and gave the people the temperance laws they wanted.

Editors who say they were never for him for a nomination before are now enthusiastically aligning themselves under his banner, and bring reports from their constituents that the same situation prevails all over the State. They know, they say that Beckham has the backbone to stand for what is right and what the people want, and has never yet been known to sidetrack an issue when it has been brought before him, even though it cost him a Senatorship. The editors told him that his friends are increasing daily and that the attacks made upon him and his past official record are helping, rather than hurting, for the people know what he has done and where he stands, and are not afraid of him running away from any proposition.

Gov. Beckham was an honored guest at the annual banquet of the Kentucky Press association Thursday night and responded to the toast "The Commonwealth". He was given an ovation when he was called upon by the toast master, retiring President Ed Shinnick, the guests all rising to their feet with a tumult of applause as he began. The other speakers of the evening were, Col. H. P. Johnson, Harry Summers, T. C. Underwood, Mike O'Sullivan and J. B. Stears.

The meeting adjourned today at noon.

### DEAFNESS CANNOT BE CURED.

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases often are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

To the Republicans of Rockcastle County:

Many Republicans from all sections of the county have invited me to make the race for the Republican nomination for the office of county clerk. The demand being so general and urgent on their part, I decided to enter the race. I feel that I am well qualified to fill this important office. I finished a course in bookkeeping and general business about twelve years ago which vocation I have since followed for a living. I write a plain, legible hand and will be able to keep such a record of your valuable papers.

Your aid in my behalf for this office is kindly solicited and will be appreciated.

#### Boone Way Notes.

Writing under date of June 14 from Chapel Hill, N. C. to our Booster Secretary, Prof. Archibald Henderson says "Immediately following the receipt of your kind letter of information as to the Boone Way, I went to Winston, Salem to make an address, and carried your letter with me. I showed it to Mrs. Patterson and talked with her at length about her plans. She hopes, during the summer to mature her plans and actually begin work on the N. C. end, marking the Boone trail. She wants me to go over to Winston, Salem, and from the various depositions of people living along the route, which I have in my possession, locate on a large map the Boone trail in this State. I hope that, if you learn anything more about Boone, especially any papers, letters, documents, etc., in existence in Kentucky, you will be so good as to inform me of their whereabouts.

I was delighted to have the papers you sent me; and beg that if you publish any more historical articles you will send me copies." Prof. Henderson is writing a "History of the Times of Col. Richard Henderson" which of course will include the history of the life of the great Kentucky frontiersman, Daniel Boone. Exchanges are requested to note the post office address of Prof. Archibald Henderson, Chapel Hill, N. C. and request any readers who have information etc., as mentioned above, bearing on life of Boone, to kindly advise Prof. Henderson of same.

It has been suggested that each and all namesakes of that famous old frontiersman Daniel Boone, contribute something to the Boone Way postage fund to aid in defraying expenses of the big correspondence made necessary in the great work of promoting and putting thru Congress a bill for constructing the proposed National highway from Cumberland Gap to Crab Orchard Kentucky. Any sum small or large will be properly acknowledged and the donor will be enrolled as a member of Boone Way Booster Band No. 1. Mt. Vernon, Ky., workers in this great undertaking. All persons in sympathy with the movement are requested to extend their aid. Send contributions to the Band at above address. Should the reader know any of these namesakes kindly assist Boone Way to the extent of sending the address of same to Mt. Vernon. Exchanges please copy.

The New York medical societies claim that Dr. Friedman is not "ethical" inasmuch as he wishes to get some financial remuneration from his discovery of a tuberculosis cure. It looks something like jealousy to a man up a tree.

Tell a man right off the reel that some acquaintance was buried on Tuesday, or any other day of the week; the man will usually ask the unnecessary and foolish question: "Why? Is he dead?"

The Assistant Attorney General says that frog-hunting is no offense against the game laws of the State. What's his ruling on snipe hunting with a sack and lantern?

## Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

Mrs. LILA B. HAWKINS, of Zions, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad but, thanks to Dr. Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Golden Tablets.' I have nothing but praise for Dr. Pierce's wonderful medicines."

## COUNTRY CHILD'S DAY NOW IS HERE

Parents and Teachers Prepare  
For Newer Life.

ERECT MODERN SCHOOLS.

Up to Date Building and Equipment  
Mean Added Interest to Both Teachers and Scholars in Educational Matters—A Model School Near Louisville With Domestic Science Room.

Wherever people are thinking definitely about the future they realize that the child is the greatest problem with which the state has to deal because it is the state's greatest asset. This is especially true in the rural districts, and both teachers and parents are getting ready for the newer life that promises to develop within the next twenty-five years or so.

Four miles out of Louisville on one of the main turnpikes, where, for years

THE SCHOOL, DISTRICT 51, JEFFERSON COUNTY.

the people had been thoroughly satisfied with a poor schoolhouse and a poorer playground, a new building has gone up. This building was made possible by the district levying a special fifteen-cent tax for two years and securing the help of the county board of education. When the public began to understand what was taking place it rallied to the support of the new school. This was made very plain when the Southern Brick and Tile company, which had a large plant in the neighborhood, added an extra acre of ground to the acre already secured by the trustees for the district.

The moment one enters the beautiful brick building with its soft green roof that harmonizes with the surroundings it is evident that it is an up to date school with a modern school equipment, for a sanitary drinking fountain is the first thing that catches the eye. The building has two beautiful schoolrooms perfectly lighted and equipped with modern single desks. Two ample classrooms are immediately in front of the classrooms and open into the main hall, while at one end of the building there is a cozy rest room for teachers and pupils, with a light, pleasant little library. Both of the classrooms are arranged so that they may be turned into one huge room, while the teachers' platform can be joined and become a stage with the library and rest room as dressing rooms for the same. This simple

DOMESTIC SCIENCE ROOM.

device makes it possible to use the school for entertainments and as a perfect social center for the community.

Down in the big, airy basement is the modern heating plant, a gasoline engine and tank that supplies the water for the building. In this same basement there are two big rooms, one of which is equipped with twelve work benches for the manual training class. The other room of the basement is equipped to handle a class of eight girls in domestic science.

It might seem in looking over this school, with its perfect equipment and its splendid grounds, its huge cistern and its deep well, to furnish perfect drinking water for the children, as if the cost would have been excessive. Yet the whole equipment, including gasoline engine, domestic science outfit, manual training benches and tools cost only \$5,750.

There is one final point that should be touched and touched upon definitely, and that is the effect of this building and equipment upon the two teachers. Last season when they realized that this dream was to come true they both went to a summer school, one taking a summer course in domestic science, the other in manual training.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Two Men Discuss the Present  
& Schoolbook Law.

BOTH AGREE IT IS UNJUST.

To Have the County Authorities Select the Children's Schoolbooks. Often Means a Hardship For the Parents and a Loss of Valuable Time to the Pupil.

"Say, Bill, somebody told me the county is to select the children's schoolbooks for next year."

"Yep, that's what the fellows round the courthouse say. It's a new law again."

"No; I reckon they've gone back to the old way we had a good while ago. Well, all I can say is I'm mighty sorry."

"Why? Don't you think our folks can select good schoolbooks?"

"Course they can, but that ain't the point I'm drivin' at. Look here, you're leavin' a farm same as I am, ain't you?"

"Yep."

"Well, suppose you buy your boy an' girl a set of books for school next fall, an' then 'bout the Christmas holidays you go over into the Big Bull Skin neighborhood just across the county line."

"By George, I hadn't thought about that side of the question."

"Course you didn't, 'cause your kids are just little fellers, an' they ain't been to school long. But you wait 'til you have a whole raft of 'em, like I've got, an' then you'll understand what a big thing it can be. I remember mighty well one time when I moved from one county into another. The move wasn't more than five miles either, an' the new books I had to buy for my four children cost me \$84."

"That's mighty tough, an' I don't wonder you're kickin' about it."

"If the cost of the books was all of it it wouldn't be so bad. I've got a heap bigger kick comin' than just the cost of the books."

"What is it?"

"What hurts me is that sometimes a child'll lose a lot of valuable time. There's my oldest boy. He's got on sixteen, an' he's through the eighth grade an' ready for the high school. He'd been through almost two years of high school work if he hadn't lost time 'cause he moved from one school to another."

The man was silent for a moment before he continued sadly: "The boy's big for his age, an' now he's got to work because he feels he is too big an' old to go through high school. 'The change' ruined my money out of our pockets every time we move an' money out of our children's pockets for the rest of their natural lives."

"Say, let's all agree to watch the schools just a little bit, an' let's get busy with our next legislature an' see if we fellows that stand between the plow handles an' feed folks can't have things fixed to suit our pocketbooks an' to make it better for our children."

The men were silent again for a few moments. At length one spoke up. "Kinder strange how all of us fellows talk an' plan how things ought to be run at Washington," he said. "We talk of who should be president an' all that. An' we won't take the trouble to try to straighten out a schoolbook law in Kentucky that means money out of our pockets every time we move an' money out of our children's pockets for the rest of their natural lives."

"Say, let's all agree to watch the schools just a little bit, an' let's get busy with our next legislature an' see if we fellows that stand between the plow handles an' feed folks can't have things fixed to suit our pocketbooks an' to make it better for our children."

The New Schoolbook Law.

A strong effort is expected to be made at the next session of the general assembly to amend the textbook law, possibly restoring the system of state selection. The present law provides that each county shall choose its own textbooks through a commission composed of a member of the county board, a member of the board of education and a county school principal. The old contract will expire next year, and as no selections have ever been made by county commissions those in favor of state selections are desirous of securing legislative action restoring it before the county commissions have a chance to act. Under the old state system the county judges, county superintendents and county attorneys voted on the textbooks and a majority ruled. Some form of legislation will be considered by the Kentucky Educational association at its meeting in Louisville, April 30, and probably a draft of the measure favored by a majority will be prepared for submission to the general assembly.—Editorial Pineville Sun.

## COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Household.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my household work.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution. Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.
